SUMMARY

Junior Network Engineer with practical experience from internships and freelance consulting. Previously CCNA-certified (Nov 2021–Nov 2023) and currently pursuing CCNP. Familiar with Fortinet firewall concepts, VPN, NAT, and ACLs. Skilled in routing & switching, AWS networking, and Python network automation. Built enterprise topology simulations (VLAN, OSPF, VPN) in GNS3 and Packet Tracer, resolving scalability issues and receiving 5-star feedback from six client engagements. Experienced in documenting network designs and migration plans.

SKILLS

- **Network**: Cisco (CCNA, CCNP-level), MikroTik (MTCNA, MTCRE), Juniper (JNCIA, JNCIP-level)
- **Security**: Fortinet (FortiGate), Cisco ASA, Palo Alto (basic configuration & policies)
- **Cloud Platform**: AWS (VPC, EC2, Route 53, IAM), GCP (Arcade Labs), Azure (AI-102 fundamentals)
- **Languages**: Indonesian (native), English (advanced; TOEFL equivalent 623, Elskill English Course, 2025)

EMPLOYMENT

Network Consultant, Freelance **Fastwork.co** **Dec 2024 - Present**

- Delivered enterprise topology simulations (VLAN, OSPF, VPN) using GNS3 and Packet Tracer, resolving scalability issues and earning 100% 5-star feedback from six client requests.
- Performed network performance and security reviews, optimized HTB configuration.

Network Engineer, Intern **Mastersystem Infotama** **Dec 2021 - Sep 2022**

- Supported senior engineers in datacenter site surveys, collected information needed for migration planning.
- Helped prepare High-Level and Low-Level Design documents for Cisco network and security implementations.
- Developed a CCNP lab guide using on-site networking equipment. Configured and documented Cisco Meraki (MX67) for SD-WAN, firewall, and monitoring; Cisco ASA 5520; and WLC setups for lab reference.

EDUCATION

Surabaya, Indonesia **Politeknik Elektronika Negeri Surabaya** **Aug 2023 - Present**

- BASc in Computer Engineering, Jul 2027. GPA: 3.6

Bogor, Indonesia **Politeknik IDN Bogor** **Aug 2024 - Present**

- BASc in Computer Network Engineering, Jul 2028. GPA: 4.0

Bogor, Indonesia **SMK IDN Boarding School** **Jul 2020 - Jun 2023**

- Vocational High School (TKJ / Computer and Network Engineering).

ACADEMIC PROJECTS

- **NetCrowd (2025)**, Led development of NetCrowd as a course project, a crowdsourced campus network reporting app featuring an interactive map, local data persistence, and basic analytics.
- **Cyber Optik (2024)**, Led development of Cyber Optik as a course project, a Flutter course project for network monitoring and security with speed tests, basic packet capture, SSH terminal, VPN, and SFTP file transfer.

CERTIFICATION

- **CCNA**, Cisco (Issued Nov 2021, Expired Nov 2023) currently pursuing CCNP.
- **MTCNA**, MikroTik (Issued Feb 2024, Expires Feb 2027).
- **Fortinet Certified Associate Cybersecurity**, Fortinet (Issued Jan 2025, Expires Jan 2027).
- **Junior Network Administrator (VSGA)**, Digital Talent Scholarship (Issued Aug 2024, Expires Jul 2027).

TRAININGS

- **IDN.ID:** JNCIP (Routing, MPLS, VPNs); CCNA 200-301; MTCNA; Fortigate NSE4; DevOps (CI/CD, Docker, Git); Basic Penetration Testing; Industrial IoT & Automation.

VOLUNTEERING

- **Network Trainer**, HMCE (Jun 2025), Delivered a 90-minute workshop on VLAN and inter-VLAN routing to ~80 new Computer Engineering students during CEO 2024.
- **MTCNA Trainer**, SMKN 3 Jakarta Pusat (Oct 2022), Conducted a 3-day MikroTik workshop through the IDN Mengajar program; 83% of 35+ participants passed certification.
- **Fiber Optic Trainer**, SMKN Insan Kreatif (Nov 2021), Trained 10+ vocational school teachers on fiber optic fundamentals and splicing techniques via the IDN Mengajar community program.
